City Library Changes to Meet Needs

Many years ago, the library was primarily a place to find a great book to read. But as society has changed, so has the library. *In fact, the Pleasant Grove City Library is meeting the needs of the citizens in surprising ways.* Our library can help you write a resume, find a job, plan a trip, write a research paper, discover your ancestors, prepare for the GED test, take an online class (we offer over 500), and much more.

In addition to a great selection of books and traditional library resources, our library has eight computer stations and three laptops with access to the Internet. *The library also provides audiobooks, ebooks, videos, and music* which can be downloaded to a myriad of your own electronic devices. And with your library card, most of the library's online resources are available to you from your home computers as well.

The Pleasant Grove City Library has **on-going, top-notch programs for children, teens and adults.** See page 2, or check out our website (www.plgrove.org/library) for more details on these.

Although our library and its staff have grown and adapted in many ways to accommodate the needs of our changing community, they are still functioning on the infrastructure of a small city library.

Because **our city is now two and a half times the size that it was when the library was built**, we have far outstripped its ability to adequately serve us.

If you value a quality library in our city, please express this to the Mayor, City Council, or Library Board members.

April Harmon
Library Director

TipSoft Tool: Help Fight Crime

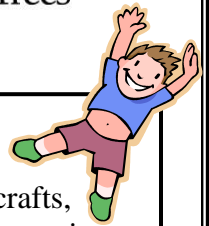

Citizens can send anonymous text and web tips to the PG Police Department.

Pleasant Grove Police Department has announced a new service to allow members of the public to provide anonymous tips to law enforcement. The service, called TipSoft, was recently announced as a statewide initiative involving more than 50 law enforcement agencies throughout the State of Utah. *Citizens can submit anonymous tips* to Pleasant Grove Police through the Web or by sending a text message to "CRIMES" (274637) with the keyword PGPDTip.

"The widespread use of text messaging makes it easy for the public to help law enforcement agencies fight crime," said PG Police Chief Tom Paul. "And with TipSoft, they can know that it's safe for them to do the right thing without ever disclosing their identity. TipSoft, allows agencies and members of the public to exchange messages back and forth through a *completely secure and anonymous channel*. This tool gives them a safe way to share it with authorities."

Citizens are encouraged to use TipSoft to report information about any non-urgent illegal activity, such as unsolved crimes, vandalism, theft, the sale and distribution of drugs or information about crimes that are being planned in the community or in schools. If you have questions about this new tool **contact Heidi Johnson, 801-785-3506.**
